

Health and Human Services - Public Health WIC - Women, Infants and Children Nutrition Program

WIC provides nutrition education and food supplements to low-income pregnant or breast-feeding women, and to infants and children up to age 5 with medical/nutritional risk factors. WIC also screens children for dietary concerns, iron deficiency and growth concerns.

Services are available to Oregon residents who are pregnant or postpartum women, infants and children under 5 years of age, who have a nutritional need and meet income guidelines. Mothers, fathers, guardians or foster parents may apply for WIC for their children. If you currently receive TANF, Food Stamps or the Oregon Health Plan, you are automatically income eligible.

Our services are available regardless of age, race, color, sex, religion, national origin, physical or mental disability, sexual orientation, gender identity, and marital status.

Lane County Public Health facilities are wheelchair accessible. Public Health materials are available in alternative formats; such as large print, Braille, and other languages, upon request.

Phone: 541-682-4202
