

# ATTENDANCE

## Give us a call

Let us know, in advance if you can, of any absence for your child. It is your responsibility to inform us, with the reason and expected return date, of your child's absence. One scheduled vacation, family visit or other planned event of up to three calendar weeks will be permitted each program year.

## Always room for fun

We want families to have fun and experience a joyful life. Our classes offer hands-on learning experiences for children. It is critical at a young age for children to get as much exposure in the classroom as possible, so attendance is crucial.

## Makeup classes

To ensure that your child is receiving a proper education, families will be expected to participate in alternative services during an extended absence. This is to ensure that your child is getting a constant and stimulating educational experience.
